AMENDMENTS TO THE CLAIMS

1. (Original) A method comprising:
   displaying a web based game; and
   receiving control input for the game from a television remote control.

2. (Original) The method of claim 1, further comprising:
   displaying a set of game control options in a matrix format.

3. (Original) The method of claim 1, further comprising:
   displaying a set of web based games as navigation options.

4. (Original) The method of claim 1, further comprising:
   receiving control input from a second television remote control.

5. (Original) The method of claim 1, wherein the game is one of a video game and a gambling game.

6. (Original) The method of claim 1, further comprising:
   tracking the online status of a group of individuals designated by a user.

7. (Original) The method of claim 1, further comprising:
   providing a game matching service to a user.

8. (Original) The method of claim 1, wherein the control input is unique input.

9. (Currently Amended) A method comprising:
   executing a game on a server;
   displaying the game remotely <u>over an Internet</u> at a first location on a first television; and
   receiving control input remotely from a first television remote control at the first location.

10. (Original) The method of 9, further comprising:
    providing access to the game from a simplified navigation interface for web content on a television.

11.   (Original) The method of claim 9, wherein the game is one of a video game and a gambling game.

12.   (Original) The method of claim 9, further comprising:
displaying the game remotely at a second location on a second television.

13.   (Original) The method of claim 12, further comprising:
receiving control input remotely from a second television control.

14.   (Original) A machine readable medium having stored therein a set of instructions which when executed cause a machine to perform a set of operations comprising:
displaying a web based game; and
receiving control input for the game from a television remote control.

15.   (Original) The machine readable medium of claim 14 having further instructions stored therein which when executed cause a machine to perform a set of operations, further comprising:
displaying a set of game control options in a matrix format.

16.   (Original) The machine readable medium of claim 14 having further instructions stored therein which when executed cause a machine to perform a set of operations, further comprising:
displaying a set of web based games as navigation options.

17.   (Original) The machine readable medium of claim 14 having further instructions stored therein which when executed cause a machine to perform a set of operations, further comprising:
receiving control input from a second television remote control.
